OUTPUT:

The output of the three separate itemsets are written in 3 seperate files. The link is :

https://github.com/Arolive/ML/tree/master/DMML/Asignment_1_frequent_item_set/output

For enron we have the output for min_support = 0.06 and k = 2
For kos we have the output for min_support = 0.1 and k = 4
For nips we have the output for min_support = 0.7 and k = 3
